QUALIFICATIONS

SSI (Structural Steel Integration)
Constructed from special thick steel, the cabinet is welded into a single piece both inside and out. This design enhances the cabinet's overall strength, making it more resistant to open and harder to destroy.

3-ways Moving XLarge Bolts for Size 2-5
The 3-way steel latch has a 22 mm diameter for sizes 2-5 and 28 mm for 2,3NDT models. More latch bolts and an anti-rust finish enhance door security, deterring break-ins and resisting bolt cutting.

CS350 Barrier Material
The cabinet is reinforced with CS350, a specially formulated fireproof material that offers 65 mm. of additional thickness, providing robust heat resistance and penetration protection, securing assets against fire and theft.

Multi Protection Door
The 85 mm steel door panel, lined with fireproof and anti-drilling fillings and a 10 mm puncture-proof plate, features robust hinges and a 15 mm fireproof backing. Heat-resistant seals boost fire defense, safeguarding contents for up to 45 minutes.

S&G Combination Lock
S&G 3-digit security lock code can be changed up to 1,000,000 numbers. Password certified to international security standards UL Group 2, Vds Class 1, CEN A and A2P A.

8 Lever Key Lock
8-lever key lock, Double Bit Lock type. The key is crafted from a special metal that is strong, durable, and difficult to counterfeit. Certified to safety standards UL 437, Vds Class 1, and CNPP a2p.

Automatic Relock System for Cassa Gold 1-7
The cabinet's automatic relock system, bolstered by safety glass and a secure code, instantly engages upon any external tampering, ensuring the cabinet remains securely locked against unauthorized access.

Drill Protection Alloy Steel
Enhanced strength is achieved with 2 layers of anti-puncture plates made from a specially developed alloy. Protect the entire code mechanism Keys and all points.

High Quality Paint
The cabinet undergoes careful polishing and rust-proofing, with paint meticulously spray-dried in a car oven for a durable, uniform, and glossy finish.
