# **FIRE-PROOF FILING CABINET**

The UCHIDA Fireproof Filing Cabinet Series offers an extremely durable and safe way to store records and other important documents. Each model is designed and built according to parameters specified by the Japan Industrial Standard (JIS).

**UCHIDA YOKO CO., LTD.**

■ **Total Quality Control**

At Uchida, we combine long experience with new ideas, to make precision the foundation of all of our manufacturing.

■ **Complete Fireproofing**

The walls of each model are filled with a scientific heat resisting material which releases a chemical air treatment into the cabinet when heated, totally protecting documents stored inside. For further protection, each drawer is equipped with its own separate firewalls.

■ **Top Quality Drawers**

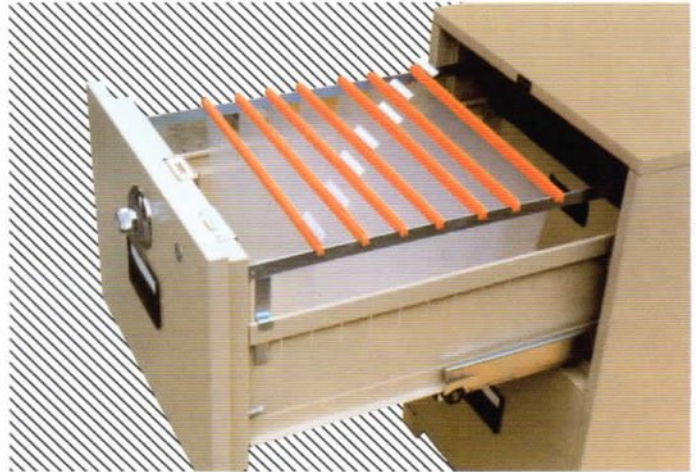

Set on an interlocking rail-roller system, the drawers slide in and out smoothly and quietly, and are also strong enough to handle heavy items with ease.

■ **Security Locks**

Each cabinet is equipped with a complete security system, whereby the entire cabinet is locked tight with the turn of the combination lock on the top drawer or drawers can also be locked individually by key, thus very effectively preventing theft and spying.

■ **Durable Construction**

Each model is designed for durability and built from surface-finished, rust-proof steel plating and parts, so you can put them through many years of constant use without worrying about rust or other deterioration.
